OFFICIAL BIO

Dr. Kimberly Schlam

DMD, MS · Prosthodontist · Speaker · Educator

LONG BIO (238 WORDS)

Dr. Kimberly Schlam is a prosthodontist, international educator, and founder of Bend Prosthodontics, the first prosthodontic private practice in Central Oregon. Her practice focuses on complex implant reconstruction, full-arch rehabilitation, esthetic dentistry, and interdisciplinary care, with an emphasis on using digital technology to improve clinical outcomes, communication, and the patient experience.

Dr. Schlam is passionate about bridging advanced technology with thoughtful, patient-centered treatment. Her research has focused on patient-reported quality-of-life outcomes in implant prosthodontics, and her clinical and educational work explores how digital workflows can make complex restorative care more predictable and collaborative. At her practice's Digital Excellence Center, she hosts a quarterly study club and a hygiene study club that bring continuing education to dental teams across Central Oregon.

She earned her DMD, cum laude, from Tufts University School of Dental Medicine and completed her Certificate in Prosthodontics and Master's degree in Oral Biology at the University of North Carolina at Chapel Hill. She served as an active-duty prosthodontist and Major in the U.S. Army, where she mentored general dentists and oversaw six on-site dental laboratories.

A Fellow of the International Team for Implantology, Dr. Schlam lectures nationally and internationally on implant and restorative dentistry, digital workflows, full-arch rehabilitation, and practice leadership, with 35 educational events in 2026. She serves as Resident Faculty at Spear Education and as a Key Opinion Leader for Straumann, and mentors women in implant dentistry through the Women Implantology Network.
